Arcane Crypto AS, in the process of rebranding to K33, a wholly owned subsidiary of Arcane Crypto AB (publ), has entered into an agreement with Bloomberg to distribute research on the Bloomberg Terminal. Bloomberg's Terminal is used by more than 325,000 of the world's most influential decision makers and has been an indispensable data and information system for financial professionals for decades.

According to the Head of Research, Bendik Norheim Schei; "Bloomberg is where the most sophisticated industry players get their research. We are therefore delighted to announce that as of January 2023, K33 Research will be available on every Bloomberg Terminal and that we are already live under the current brand of Arcane Research. We view this as an important step towards making our industry-leading research available to our clients wherever they are, and the approval by Bloomberg is a clear indication of the quality of the work we produce."
