

PRESS RELEASE 6 February 2014

Consilium receives SEK 23 million order from UAE

Consilium has received an order for a fire protection system at a port facility in Fujairah in the United Arab Emirates. The order, placed by Albanna Engineering, is for installation in the Port of Fujairah and the system will be delivered during 2014.

Consilium will deliver a complete fire protection system including fire alarms, water and foam extinguishing, gas suppression systems and fire pumps to Albanna Engineering, for installation in connection with the expansion of the Port of Fujairah – one of the world's largest bunkering ports.

"This is yet another order to Consilium for a complete fire protection system in the United Arab Emirates," says Ove Hansson, CEO of Consilium.

About Consilium

Consilium is one of the world's leading suppliers of safety and navigation products and solutions. The product portfolio comprises fire alarm systems, gas detection, emission monitoring systems and navigational equipment. In addition, fire protection systems and automation systems are marketed towards the oil and gas industry, the offshore industry and the energy sector. The guiding-star of Consilium's total offerings is to contribute in the protection of lives, material assets and the environment. Consilium's goal is to be the customer's first choice when safety matters and to offer superior customer value. The ambition is to become a global leader within well defined market and product areas, by utilization of the Group's combined competence, long experience and successful innovations – and thereby create long-lasting shareholder value. Consilium is publicly listed on NASDAQ OMX Stockholm, has more than 600 employees and a turnover of more than SEK 1,000 million.
