Interviews with MediRätt's management team now available in English

This summer, MediRätt's management team have participated in a series of in-depth interviews to give investors and others a deeper understanding of the company's plans and ambitions ahead.

All three interviews are now available with English subtitles on the company website, <http://www.mediratt.com/en>.

"We are breaking new grounds with Dosell. I have been CEO of MediRätt for four years now, and I'm only just getting started", says CEO Carl Johan Merner in his interview with Deep Talk.

MediRätt in brief

In Sweden 5 people die and another 300 are hospitalized due to improper medication. MediRätt is a Swedish medical technology company that develops digital solutions for safer medication and drug dispensing. The company was founded in 2008 by general physician Göran Sjönell and industrialist Sten Röing. MediRätt has developed the patented digital drug dispensing machine Dosell, as well as a series of applications that together form a unique overall concept to ensure that elderly and multi-medicating patients receive reliable and safe medication.

The company is listed on NASDAQ First North since 2016. Erik Penser Bank, 08-463 80 00, is the company's Certified Adviser. Further information is available at www.mediratt.com.
