Raytelligence – signs agreements with resellers

Raytelligence signs agreements with

- Milcross Medtech AB operates in assistive technology for healthcare, primarily private actors in Sweden
- NorthMerge specializes in technology transfer in the healthcare sector, the forest and mining industry and, in the energy and environmental areas

"In parallel with the intensive sales process, we sign ongoing agreements with resellers and partners to gain a global presence, it is gratifying that Milcross Medtech and NorthMerge find our products interesting," says Klas Arvidson, CEO of Raytelligence.

We at Milcross Sweden AB are proud to become resellers for Raytelligence products and we are confident that they represent the future needs for solutions and security in health and care sector", says Anders Nyberg CEO of Milcross Sweden AB.

"We are very positive about the collaboration with Raytelligence and that the company wants to reach out with its innovative technology in the healthcare sector in South America, in a market where it is needed and in demand", says Ola Dunderberg CEO Northmerge
