Raytelligence receives orders from Luleå municipality

Raytelligence receives initial order from Luleå municipality, order value SEK 45,000. Order refers to a test for 6 months in special accommodation.

"We are very pleased to be able to deliver to Luleå municipality, which has a very professional organization for the introduction of welfare technology, more and more municipalities are discovering the benefits of the EaZense sensor system and the opportunities it offers." says Klas Arvidson CEO.

"It feels very exciting. We have a goal to be at the forefront of digital and invest in digitalisation and welfare technology, which are prerequisites for succeeding in meeting the challenges of the future in elderly care," says Henric Barsk, Unit Manager Luleå Municipality.
