

## Meltron receives order from machining industry in Finland

Meltron has now received an order from a new customer Wel-Mach Oy, a machining company in Vaasa, specialising in metal and welding works as a subcontractor for major industries and global companies. Meltron will deliver a turnkey installation of luminaires, including both Meltron's High Bay lights (MHB) and Property Lighting (MPL), as well as lighting control systems, and installation, for five halls within the Wel-Mach facility. The order value is approximately 65 k€ and will be delivered during the spring of this year. Meltron has secured the supply of critical components.

- After an onsite product demonstration and based on a well developed solution, our customer was convinced by the quality of light and the significant cost reductions gained through energy efficiency and long life time of the luminaires, says Jarmo Korpisalo, sales Finland.
- After a slow second half of 2021, the year has started well with a number of orders from important Finnish customers in excess of 100 k€, says Göran Lundgren, Meltron CEO (acting). We see an increasing activity in the market and a growing pipe line.

## About Meltron – “More than Just Light”

*Meltron AB designs, manufactures and sells LED lighting solutions which are based on interdisciplinary application of electronics, optics, thermodynamics and nano structures. “More Than Just Light” translates into energy savings, superior light quality, product life-time savings, increased productivity, safety and wellbeing. Meltron provides high quality solutions for the most demanding environments in infrastructure, industry, logistics and agriculture.*

*Meltron's shares are traded on NGM Nordic MTF under the ticker **MLTR**.*
