Press release March 28, 2023

Unibap receives orders from US distributor

Unibap's US distributor Moog Inc. has placed orders for SpaceCloud® iX10 Development, Engineering and Flight Models with a total value of 430 KUSD for delivery to customers in the United States.

These orders by Moog Inc. of Unibap's iX10 system, with a total value of 430 KUSD, are intended for customers in the United States who have selected Unibap's SpaceCloud® solution as the basis for their coming flight missions.

- I am very happy to see the growing interest from the market in our iX10 models. This shows that Unibap's products and continued development are in line with market demands. This is yet another step forward on our growth path, and consistent with our strategic plan for the company, says Johan Åman, CEO.
